Were you on the press call? They're finalizing a draft. I just spoke to him and his fact sheet would apparently be better than the one you set up re: Red and Bonita. So stand by for that.

There could be some overlap with the R9 fact sheet Bill Keener mentioned so maybe make a place to put historic and info on other mines in the area where both fact sheets can go?

I prepped a draft page with the two PDF fact sheets. THIS IS NOT LIVE.

<https://wcms.epa.gov/user?destination=goldkingmine/fact-sheets-gold-king-mine-response>

Note - this is just the holding page that's used to upload the files into the Web system. They could of course be linked to from other perhaps topical pages, too, for example, a "Colorado" page.

Waiting for go ahead on FAQs from Paula but if these are not on the website (I don't see them) think about where to put them. I'll let you know when it's a go.

Hi, Lisa.

Here you go. I'll shoot more to you in a few. The Gold King Mine fact sheet hasn't been officially blessed for posting on the webpage, but it is out there, so Tim can decide if he wants to put it on there. It is a little dated now anyway. Sorry for the delay.

Cynthia

Can you send me a copy of any docs you guys have handed out down there? Rich is putting together messaging and needs them and we need to make sure Tim has them to post.

I think everything is being posted on the official Gold King Site, so as long as we are linked to that, I think we are good.

Thanks!
